

**Architectural Rendering**

## **New Dodridge Street Bridge**

**This triple-span, arched, reinforced concrete girder structure, spanning the Olentangy River in Columbus, Ohio, will be built during the 2011 and 2012 construction seasons.**

**Architectural enhancements include decorative railing and street lighting.**

**For additional information, please call the Franklin County Engineer's Office at (614) 525-3030 or visit our web site at [www.franklincountyengineer.org](http://www.franklincountyengineer.org).**
