SAWMILL ROAD - Sec. "C" Part, Perry Township (Establishing, Altering & Widening)

June 10, 1965

Board of County Commissioners  
Franklin County, Ohio

Gentlemen:-

The Ohio Department of Highways and this office have reviewed and discussed at length, the Sawmill Road interchange with 1-270-10.22N in Franklin County.

The Department has advised us that in order to justify a four lane highway on Sawmill Road through the interchange limits, at interstate cost, Franklin County Must agree to construct four lanes on Sawmill Road from the interchange limits south to S.R. #161. We were also informed this improvement could be made a part of the contract plans for 1-270-10.22N.

Since the limits of the Sawmill Road improvement south of the interchange limits are not eligible for interstate financing and secondary funds are not available, Franklin County would assume and contribute 100% of the cost, including engineering.

The Consulting Engineer for the State on the interstate project has submitted to this office a proposal for preparing detailed plans for the Sawmill Road improvement. Said proposal would comply with all provisions of the contract that they have with the State except the engineering fee. The Consultant has agreed to prepare said plans for a fee of 6.5% of the engineers estimated cost of construction - said construction costs being approximately \$175,000.00.

It is the opinion of this office that the improvement of Sawmill Road south of the interchange limits is a much needed project and being a part of the interstate contract plans the cost will be considerably less than if it were sold as an individual improvement.

In view of the above, we are presenting for your consideration a resolution of County Commissioners, proposing to cooperate with the Director of Highways, and a copy of the Consulting Engineer's proposal to develop the contract plans.

It is the recommendation of this office that the Resolution of Cooperation be approved and that the Board of County Commissioners agree to the engineering fee as submitted by the Consulting Engineer for preparing the engineering plans.

Respectfully submitted,

Guy Elbin, P.E.
