## Finding Your Way: The Truth About Paper Maps

[Columbus, Ohio – June 3, 2024] – Brad Foster, P.E., P.S., Franklin County Engineer, announces the release of the 2024 printed edition of the Franklin County, Ohio Road Map and Street Locator.

Producing paper maps and atlases is required per the Ohio Revised Code and an obligation the Engineer's Office must fulfill. The Franklin County Engineer's Office takes pride in producing the best road map and atlas possible for the central Ohio area. The theme of this edition is roundabouts and includes 10 additional roundabouts, 62 new public roads, and over 1,120 acres of land annexations from the previous edition.

2024 Franklin County Map & Atlas

*"During my career at the engineer's office, I have been an advocate of designing and constructing roundabouts at Franklin County intersections. Roundabouts are proven to improve safety, reduce speeds, and improve operational performance. I am proud to dedicate this edition of the Franklin County, Ohio Road Map and Street Locator to roundabouts."*

Franklin County is home to approximately 800 parks and open spaces, a robust and growing Metro Park system, and over 230 miles of multi-use trails along the Greenways Trail system that connect our communities. We are also happy to include The Ohio State University, Columbus State Community College, COTA transit route information, locations of roundabouts in our county, and much more.

Engineer Foster has made these printed maps available for free, through public libraries, the Bureau of Motor Vehicles licensing agencies, city, state, county, and township offices within Franklin County. The maps and atlas are available all hours, every day, through convenient pick-up boxes located outside the Engineer's Main Office – 970 Dublin Road, Columbus, Ohio, 43215, Engineer's East Outpost – 4801 Hendron Rd, Groveport, OH 43125, and Engineer's West Outpost – 4444 Fisher Road, Columbus, OH 43228. For our digital friends, you can access our maps and atlases at the Franklin County Engineer's website which can be located at [www.franklincountyengineer.org](http://www.franklincountyengineer.org).

###

*The mission of the Franklin County Engineer's Office is to provide for safe and efficient movement of people and goods from place to place by designing, building, and maintaining Franklin County's roads, bridges, and infrastructure for multiple modes of transportation. We are an agency of action, innovation, and collaboration.*
