PROJECT OVERVIEW

The project seeks to improve drainage in the Plum Run watershed, beginning east of Harrisburg Pike to Ridpath Road, by restoring the existing ditch profile, installing new storm sewer, and installing new culverts under Zuber Road, Young Road, and Ridpath Road.

The meeting will start at 6:00 p.m. with a brief presentation. Personnel representing the Franklin County Drainage Engineer's Office will be available to discuss the proposed improvements. Following the presentation, a question and answer session will be held. Everyone will have the opportunity to express their views. Comment forms will be available at the meeting and on the Franklin County Engineer website at:

www.franklincountyengineer.org/publicmeetings.

Please plan to join us, and thank you for your interest in this proposed project. We look forward to meeting with you.

Sincerely,

Cornell R. Robertson, P.E., P.S.
Franklin County Drainage Engineer
