## **PROJECT OVERVIEW**

The Franklin County Engineer's Office intends to improve the intersection of Ferris Road and Walford Street. The proposed improvement will eliminate the traffic signal and construct a mini-roundabout at the intersection. Additionally, the improvement will install new drainage, pedestrian facilities and street lighting.

The meeting will be held virtually with a formal presentation to begin at 6:00 p.m. Personnel representing the Franklin County Engineer's Office will be available to discuss the proposed improvements and any concerns you may have. Following the presentation, a question and answer session will be held. Everyone will have the opportunity to express their views. Public comments will be accepted until June 1, 2021. Comment forms will be available on the Franklin County Engineer website at:  
[www.franklincountyengineer.org](http://www.franklincountyengineer.org).

Please plan to join us, and thank you for your interest in this proposed project. We look forward to meeting with you.

Sincerely,  
**Cornell R. Robertson, P.E., P.S.**  
Franklin County Engineer
